

# How to print from USB-stick

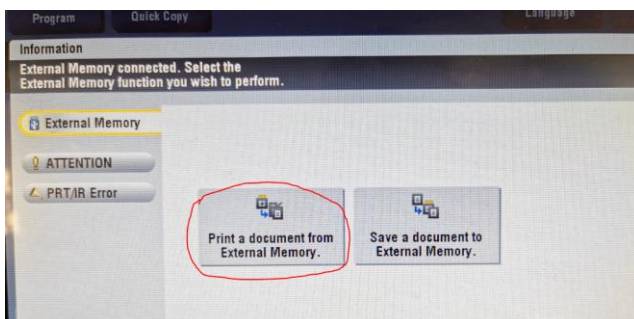

1. Login with your print card information
2. Insert the USB-stick (right side)

Be aware that the printer **does not support all types of USB-sticks.**

- Needs to be formatted in Fat32
- Up to 2 GB is recommended
- USB sticks with a memory size of 4 GB or greater may not operate correctly

3. Wait for popup window
4. Select Print a document from External Memory

5. Select the document that you want to print
6. Click print (right site)
7. Select the wanted print options
8. Click at the green/blue big button (action button)
